## H. READING

**39-40. soruları parçaya göre cevaplayınız.**

Cricket is an elaborate bat - and ball game; first played in England in Tudor times and has spread as a major sport throughout the Commonwealth. The principles are basically simple, but the laws - first drawn up in 1744 - are complicated. The game is usually played by 2 teams of 11 on a field of unspecified size with 2 wickets. The teams decide by tossing a coin whether to bat or to field. Members of the batting side endeavor singly to defend each wicket from attack by the fielding side's bowlers - players who attempt individually to trap the batsmen by delivering a regulation ball in a manner defined in the laws.
